

Tomorrow's Thinking Today.

Tired of a slow computer or network?

Tired of non-responsive technical support? Why not turn to a local company that's more than a voice on the phone? A company whose employees will work side by side with you to help you make the best IT decisions for your company and to find the best solutions for your IT needs.

InTech IT Solutions is a full – spectrum IT services company that listens.

We want to understand your business's challenges and objectives. We work hard to develop solutions that meet those needs for the long term. We want to be the IT partner for your business.

InTech IT Solutions is dedicated to helping your firm with the latest in hardware, software, programming support and service. But we believe our success is not just a numbers game... we know that our success lies in our people and the relationships we build with our clients.

That's why we're not just there at the beginning.

We're with you every step of the way to help you make the best decisions to reduce your overall IT costs, to improve your company's performance and reduce backup and recovery time in case of disaster.

Let us show you how we can help.

Call us for your NO COST Technology Assessment today!

Forward Thinking Technology

With nearly limitless and sometimes overwhelming options in technology, InTech IT Solutions' consultative approach will provide you with a comprehensive and unbiased solution. Exceptional distributor relationships representing thousands of IT manufacturers gives InTech the ability to meet any of our clients' needs. InTech can assemble the right pieces of technology to provide you the maximum benefit.

Preferred Partners:

For over a century IBM has been a leader in innovation. Their defining value is the way they think Smarter! As an IBM Business Partner, InTech IT Solutions offers IBM's exceptional technology:

- » Servers that can reduce power and cooling costs by 20-40%.
- » Blade servers that offer exceptional computing power and innovation in a high density rack chassis.
- » Flexible and economical disk storage systems.

NetApp is a world leader in unified storage solutions for today's data-intensive enterprises. Whether it is protecting data, keeping it always available, or meeting today's demanding regulatory challenges, Net App solutions meet customer's biggest storage challenges:

- » Enable a true disaster recovery solution, not just a backup.
- » Net App products grow with your demands, without growing budgets or data centers.
- » Quickly and economically scale infrastructure to match business needs.
- » Achieve new capabilities and efficiencies using the investments already made and keep the tools and procedures you already know.

Virtualization dramatically improves the efficiency and availability of resources and applications in your organization:

- » Internal resources are under utilized under the old "one server, one application" model.
- » VMware Infrastructure delivers resources, applications – even servers and desktops – when and where they're needed.
- » VMware customers typically save 50-70% on overall IT costs by consolidating their resource pools and delivering highly available machines with VMware Infrastructure.

Service from InTech IT Solutions

An immediate, accurate and appropriate response to your IT needs is critical in today's business environment. Through a mature thought process, a clear understanding of software development and by narrowing the focus of the problem, InTech is able to solve technical problems quickly. Our strength in technology lies in the breadth of skills, people and the right processes. With articulate explanation and solid rationale behind every recommendation, InTech's customers have come to rely on our uniquely trustworthy, honest and fair direction and consultation. InTech IT Solutions is a full service technical firm that is committed to bringing a refreshing approach to IT Services. InTech truly is InTouch, InTelligent and InTuitive!
